

WEAK, PALE, THIN

Dr. Williams' Pink Pills Restored Mrs. Robbins To Health and Also Cured Her Daughter of Anemia.

Mrs. J. Robbins, of 1121 Clark St., Decatur, Ill., says: "I was weak, thin and troubled with headaches. My appetite failed so that I did not relish my food. I was unable to do my work because my limbs pained me so and my feet were swollen. I got numb and dizzy, my tongue seemed at times to be paralyzed so that I couldn't speak distinctly. My extremities, when in this numb state, felt as if some one was sticking needles into me all over their surface. Through my shoulders at times I had such pain that I couldn't sleep. Many times I awoke with a smothering sensation. "When the physician's remedies failed to benefit me I began to look for something that would. My sister, Mrs. McDonald, recommended Dr. Williams' Pink Pills to me and I at once purchased some. I was greatly encouraged when I saw how they acted on my nervous condition and continued using them until cured. I am now able to attend to my duties and have not consulted a physician since. "I also gave them to my daughter who had always been weak and who at this time seemed to lack vitality. Her cheeks were colorless and she was thin and spiritless. She had anemia and we feared consumption, because every time she went out doors if it was at all cold or damp she would take cold and cough. But Dr. Williams' Pink Pills brought color back to her cheeks and strength to her body. "Dr. Williams' Pink Pills are sold by all druggists, or sent postpaid on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams' Medicine Co., Schenectady, N. Y.

THE COST OF CONGRESS

APPROPRIATIONS MADE AT BOTH SESSIONS \$1,849,000,000.

Naval Expenses Cut, Pensions Increased: Also the Allowance for the Post Office Department.

Washington—The appropriations made by the session of congress just closed, tabulated, were as follows:	
Agriculture	\$5,502,000
Army	78,525,000
Diplomatic and consular	8,685,000
District of Columbia	19,725,000
Fortifications	7,554,000
Indian	14,354,000
Legislative, executive and judicial	33,009,000
Military academy	1,947,000
Navy	95,008,000
Pensions	146,099,000
Post Office	216,990,000
Rivers and harbors	57,013,000
Sundry civil	112,000,000
Deficiencies	11,000,000
Lighthouses	2,675,000
Miscellaneous	5,000,000
Permanent approp.	141,000,000
Total	\$969,353,000
App's first session	\$880,000,000
Total for congress	\$1,849,000,000

The appropriations of the short session of congress always are heavier than those made during the long sessions, because it is customary to enact a bill for the improvement of rivers and harbors, and this year the measure appropriates \$87,000,000. Then, too, it usually is the case that many members of congress retire as a result of the election in the preceding November and they have a natural disposition to get as large an appropriation as possible.

In consequence of the action of congress in passing the bill authorizing the pensioning of all persons 62 years old or more who served in the civil or Mexican war, the pension appropriation bill was increased \$5,000,000. The Panama canal appropriation remained about the same. The naval expenses were reduced \$2,000,000. The agricultural department suffered a reduction of \$1,500,000. The post office bill passed at the present session carries nearly \$200,000,000. While the appropriation for the post office department is very large, it will be paid for in postage on mail matter with the exception of about \$100,000,000. This is based on an estimate made by the postmaster general.

CHANGES IN THE CABINET.

High Officials in Treasury Department Remember Mr. Shaw.

Some twenty-five of the high officials of the treasury department called on the retiring secretary, Mr. Shaw, at the Arlington, and presented to him a large mahogany case containing two dozen handsome silver service table plates.

There were few passengers, and the robbers got a little over \$100 in cash and a few watches and revolvers.

NEWS FROM MISSOURI

Practical Good Roads Club.

A "Good Roads Club" was recently organized at Waverly by local citizens and merchants and its work has proven a decided success. In order to make good roads for the benefit of the general public, the club has constructed ten King road graders and by their use it believes the roads in this part of the country can be kept in good condition. A sum of money, sufficient to defray expenses, was raised by popular subscription, and some excellent work has been done on the roads in and around Waverly. More than seven miles of street was thoroughly dragged with King road grader; every street in the city received attention, and streets that have had little or no work for years are in fine condition. The total cost of the dragging was less than \$1000, while under the old fashioned way, with a big road grader, a like amount would have paid for but two-fifths of one day of eight hours, during which only a few hundred feet could have been graded and the work accomplished would not have been half as good.

To Walk to New Mexico.

General Hugh Cameron, the Kansas hermit of Lawrence who is going to walk to Albuquerque, N. M., to give his thanks to heaven and Edmund G. Ross for the vote of the ex-United States senator from Kansas on the impeachment of President Andrew Johnson, appeared before the Kansas senate and thanked the senators for endorsing his project. The senate did not especially endorse his long trip, but it invited General Cameron to appear before it and speak, and he considered this an endorsement. President Johnson was a personal friend of General Cameron, as was Senator Ross, and the visit is a personal one.

Henry Allen Is Editor Now.

The Wichita Daily Beacon, over the signature of its publisher, H. J. Hagerty, has announced that Henry J. Allen assumed control of the paper. Mr. Hagerty's statement follows: "The Beacon, after today's issue, becomes the property of Henry J. Allen. The terms of sale were agreed to and all preliminaries arranged January 29, but the transfer of the property did not occur until recently. In disposing of the paper and retiring from the newspaper business I naturally have many regrets. It represents to me almost fourteen years of satisfactory labor."

How Food Law Works.

Just to show how the new pure food law is working, a Kansas paper cites these instances: The new slab of bacon now comes labeled, "Inspected by the United States government." What was called maple syrup last year is now called "Poncho Syrup"; the cheap coffee packages now have printed on the wrapper that they contain some chicory. The pickles that used to come in white vinegar are now put up in cider vinegar. Packages of cereals that formerly passed for two pounds, now have printed the weight, twenty-eight ounces, on the outside.

TWICE-TOLD TESTIMONY.

A Woman Who Has Suffered Tells How to Find Relief.

The thousands of women who suffer backache, languor, urinary disorders and other kidney ills, will find comfort in the words of Mrs. Jane Farrell, of 606 Ocean Ave., Jersey City, N. J., who says: "I reiterate all I have said before in praise of Doan's Kidney Pills. I had been having heavy backaches, and my general health was affected when I began using them. My feet were swollen, my eyes puffed, and dizzy spells were frequent. Kidney action was irregular and the secretions highly colored. Today, however, I am a well woman, and I am confident that Doan's Kidney Pills have made me so, and are keeping me well."

SOME WIVES ARE DIFFERENT.

Quiet Cynicism, or Good Honest Row—Which Is the Better?

"Most men," said the man of experience, "think it must be awfully nice to have a wife who takes things as coolly as Dave Potter's wife takes them; but others, more discriminating, prefer a good honest row to her style of quiet cynicism. The way she behaved the other day when she found a letter in Dave's pocket from a girl is an example of her method. "I don't see," wrote this girl, 'how on earth I can ever live without you.' Dave's wife read that gush, and a lot more just like it, without ever turning a hair. "Well," she said, quietly, 'that girl is a fool. If she knew you as well as I do she would be wondering how on earth she could ever live with you!'"

"And that," in the opinion of the discriminating few, cuts a whole lot deeper than a common, everyday rum-puss."

Proof of Merit.

The proof of the merits of a plaster is the course it effects, and the voluntary testimonials of those who have used Alcock's Plasters during the past sixty years is unimpeachable evidence of their superiority and should convince the most skeptical. Self-praise is no recommendation, but certificates from those who have used them are.

Alcock's are the original and genuine porous plasters and have never been equaled by those who have sought to trade upon their reputation by making plasters with holes in them. Avoid substitutes as you would counterfeit money.

Long Sermons.

Mark Twain tells this story, the moral of which you may supply yourself: "I went to church one time and was so impressed by what the preacher told me about the poor heathen that I was ready to give up a hundred dollars of my own money and even go out and borrow more to send to the heathen. But the minister preached too long and my enthusiasm began to drop about \$25 a drop till there was nothing left for the poor heathen, and by the time he was through and the collection was taken up I stole ten cents off the plate."—Southwestern's book.

The Value and Importance of Ethical Remedies.

Remedies which physicians sanction for family use, as they act most beneficially and are gentle yet prompt in effect, and called ethical, because they are of

Known Excellence and Quality and of Known Component Parts.

To gain the full confidence of the well-informed of the world and the approval of the most eminent physicians, it is essential that the component parts be known to and approved by them, and, therefore, the California Fig Syrup Company has published for many years past in its advertisements and upon every package a full statement thereof. The perfect purity and uniformity of product which they demand in a laxative of an ethical character are assured by the California Fig Syrup Company's original method of manufacture, known to the Company only.

There are other ethical remedies approved by physicians, but the product of the California Fig Syrup Company possesses the advantage over all other family laxatives that it cleanses, sweetens and relieves the internal organs on which it acts, without disturbing the natural functions or any debilitating after effects and without having to increase the quantity from time to time.

This valuable remedy has been long and favorably known under the name of Syrup of Figs, and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the well-informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of Syrup of Figs and Elixir of Senna, as more fully descriptive of the remedy, but doubtlessly it will always be called for by the shorter name of Syrup of Figs; and to get its beneficial effects, always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for Syrup of Figs, or by the full name, Syrup of Figs and Elixir of Senna, as Syrup of Figs and Elixir of Senna is the one laxative remedy manufactured by the California Fig Syrup Company, and the same heretofore known by the name, Syrup of Figs, which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

How Pineapple Should Be Taken.

The reputation of the pineapple has suffered because it has been eaten in too large quantities at a time and the fibrous part has been swallowed with the juice. To obtain the full digestive value of the juice one quart of a slice half an inch thick is ample at one meal. It must not be cooked and should be just ripe. The preserved fruit has practically no digestive possibility.
